NOTE XVI.

TWO SYNONYMICAL REMARKS ABOUT CURCULIONIDAE

BY

C. RITSEMA Cz.

1. *Macropterus Verlorenii* S. v. V. (Tijdschr. v. Entom. XIV (1871). p. 101; pl. 4, fig. 1) from Timor = *Cercophorus floccosus* Chevrol. (Ann. Soc. Ent. France. 1880. p. 259, fig.) from the same island.

2. *Rhynchophorus (Calandra) rubigineus* Wiedem. (Mag. Zool. I, 3. 1819. p. 174) and Gyllenhal (Schönh., Gen. Curc. IV. p. 824) = *Rhynchophorus elegans* Guér. (Icon. Règne anim. Ins. p. 176; 1843). — Notwithstanding Chevrolat (Ann. Soc. Ent. France. 1882. p. 564) created a new genus, viz. *Paratasis*, for the reception of *Rhynchophorus rubigineus* (erroneously called by him *rubiginosus*), its synonym *elegans* occurs as the first Indian species in the genus *Rhynchophorus* (l. c. p. 560).

Leyden Museum, April 1891.
